SimpleCare®

SimpleCare® is a program developed by the American Association of Patients and Providers that offers:

◆ Best Price Medical Services

SimpleCare® providers charge their “best price” to SimpleCare® patients that pay in full by cash, check or charge card at time of service.

◆ Simplicity - No complex claim forms or confusing bills, get what you want, when you want.

◆ Freedom of Choice - Get who *you* want. You choose the health care services and providers you desire. **Ask any licensed health care provider to join AAPP / SimpleCare®.**

Less Cost

Many SimpleCare® providers have reduced their prices **20% to 50%** by eliminating unnecessary administration. You know your doctor’s fees upfront and have control of your health care dollars. You may save more on your first visit than the annual membership fee of \$29 per individual or \$39 per family. Savings vary based on each SimpleCare® provider’s “best price.”

Less Hassles

With SimpleCare®, there are no insurance claim forms, no bills, no pre-authorizations, and no limits on services or visits — leaving you and your doctor with more time for quality health care.

Ask All YOUR Providers To Participate

You can choose the medical providers and type of care you want by sending the information included in your new member package to all your doctors, dentists, pharmacists, hospitals, psychiatrists, physical therapists, chiropractors, naturopaths, and other licensed health care practitioners you desire to be SimpleCare® providers. You can change providers any time, and visit any SimpleCare® provider nationwide.

Labs, Xrays, Pharmacy

WellPartner, Labcorp and independent radiology groups participate with SimpleCare® to offer special prices, and we continue to add other affiliates.

Anyone Can Join

The insured, uninsured, Medicare patients, employers, organizations, etc. No medical restrictions.

A SOLUTION For The Uninsured and Insured

SimpleCare® may reduce your medical costs if you are:

- ◆ Uninsured (over 44 million Americans)
- ◆ Insured and seeking medical services, alternative care, or health care providers not covered by your insurance or Medicare
- ◆ Insured with a MSA or high deductible policy and want to lower your out-of-pocket medical costs
- ◆ Seeking an alternative to managed care with more freedom of choice, control and privacy
